

Speaker Craft Profile AIM7 Two In-Ceiling Directional Speaker

Profile is the best-looking line of speakers we've ever created. Really, Profile is the least-looking line of speakers we've ever created. They barely even look like speakers. They look more like shadows—and that's if you notice them at all, which no one probably will unless they're just insatiably curious about where all that great sound is coming from.

There's no bezel and no visible mounting flange. All you see is a grille, which can be painted to match the wall or ceiling. It's the cleanest speaker installation you ever saw—or didn't see.

The Profile concept is available in numerous SpeakerCraft products. It's perfect for any place you want great sound but don't want visible speakers—in other words, for any room of any house in the world.
